## Safe Deposit Locker Solution

Banks demand solutions for their clients which are both secure and convenient to use. That is why Fichet-Bauche has created the E30 range of safe deposit lockers, beautifully designed to provide a welcoming and attractive environment for the users.

### Product Overview

E30 safe deposit lockers are installed in columns with a range of three different heights (1800, 1950 & 2100 mm). Single-width columns (300mm) or double width columns (600mm) for extra large lockers are both available in an attractive stainless steel housing.

The lockers have specially designed strong polyethylene cassettes to be easily carried by the renters. Seven different locker heights are available as standard 75, 100, 150, 200, 300, 450 and 600 mm.

The minimum locker width of 300 mm ensures that documents can be stored without folding. The lockers also have concealed hinges for an aesthetically pleasing design.

E30 deposit lockers are quick and easy to install, be it inside a prefabricated vault or a vault or as a free-standing unit. In addition, the broad range of E30 models and installation options means that available space is used in the most effective way possible.

The "columns" concept for the installation ensure a very solid group assembly.

### Technical Specifications

Dimensions in mm	Columns		
	Size 1	Size 2	Size 3
Sum of locker heights	1800	1950	2100
External Width	300 or 600	300 or 600	300 or 600

Width available	Lockers heights			
	Width 300	Containers	Width 600	Containers
75 mm	Yes	Yes	No	No
100 mm	Yes	Yes	No	No
150 mm	Yes	Yes	No	No
200 mm	Yes	Yes	No	No
300 mm	Yes	No	Yes	No
450 mm	Yes	No	Yes	No
600 mm	No	No	Yes	No

### A lock "Varilock" original

The "Varilock" locking system is the ultimate security concept for both the renters (customers) and the bank (control). Varilock sealed keys are delivered for better key security.

This new design ensures:

- Absolute safety for the renter, total safety for a new renter and practicality for the main control lock in case of an extension of the columns or their transfer to another branch

### Fichet-Bauche Guarantee

Fichet-Bauche products are designed and manufactured in accordance with the ISO 9001 standard for Quality Management Systems and ISO 14000 for Environmental Management Systems.
