RHINO MK II

BURGLARY- & FIRE-RESISTANT PROTECTION

NEW-AND-IMPROVED DESIGN FOR UNPARALLELED CONVENIENCE

The Rhino Mk II range has been completely redesigned to enhance convenience and user-friendliness. Each of the following features has been remodelled and refined for optimal performance:

BODY

A robust and durable model that boasts an overall 65mm barrier thickness made up of a high-density monolithic casting contained within inner and outer steel casing.

DOOR

The solid composite 35mm-thick door secures access and is combined with additional protection plates to protect crucial locking areas. 28.5 mm diameter solid steel moving bolts secure the door to the body, while fixed "anti-heeling" bolts on the door's rear edge protect the hinge side.

LOCK

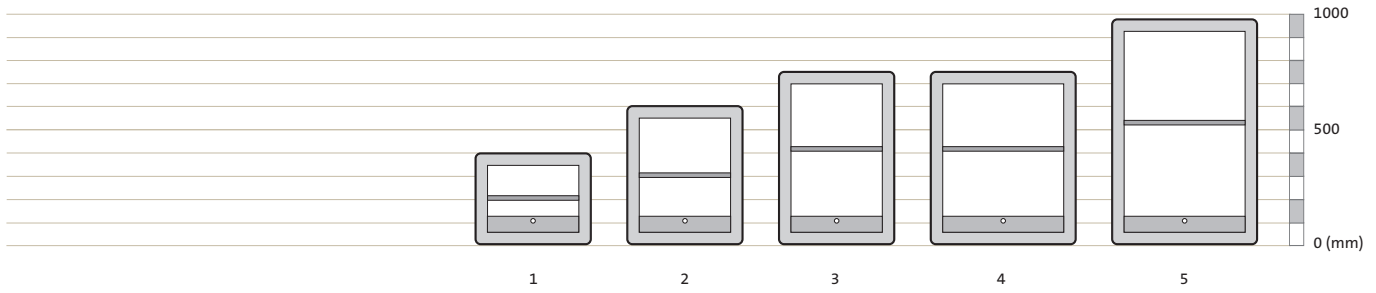

Enhanced control provided via Sargent & Greenleaf certified three-wheel combination locks and high-security double-bitted key locks.

BASE FIXING

Anchoring holes provide increased resistance and protection against unauthorised removal. Two security fixing bolts ensure that the safe can be firmly fixed to the floor when installed correctly.

RHINO MK II

PRODUCT SPECIFICATIONS

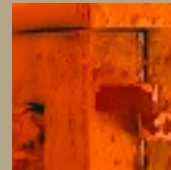

Model	External height(mm)	External width(mm)	External depth(mm)	Internal height(mm)	Internal width(mm)	Internal depth(mm)	Volume (litres)	Weight (kg)	No. shelves	Full-width drawer
Size 1	400	500	502	270	370	320	32	159	1	1
Size 2	600	500	502	470	370	320	56	216	1	1
Size 3	750	500	502	620	370	320	73	251	1	1
Size 4	750	630	602	620	500	420	130	338	1	1

You need tried-and-tested protection against burglary and fire for valuable items, cash, documents and vital records. Ideal for home and business environments, the newly redesigned ECB•S certified Rhino Mk II meets these security needs and you are certain to find the model that meets your requirements from the five available sizes. A convenient and user-friendly solution that meets the rigorous security standards you expect from Chubb safes.

5 SIZE OPTIONS

Whether for home or office use, Rhino Mk II offers a range of options to customise your safe to meet your security needs. Choose from five practical sizes, ranging from 400 to 980 mm in height and from 32- to 179-litre capacity. All sizes include a shelf as a standard fitting and a full width drawer for greater convenience.

TRIED-AND-TESTED

Enjoy peace of mind knowing your valuables are protected against burglary and fire: the Rhino Mk II range has been tested in accordance with EN 14450 Level S2 and is certified by ECB•S.

The new door built from specialist materials ensures unrivalled protection against fire. Rhino MkII is tested in accordance with the Japanese Industrial JIS S1037 standard. In the event of a fire, your documents are protected for up to 60 minutes.
